

The Chengdu Affiliated Education Group of Beijing International Studies University, established in 2018, is a school founded by the Wuhou District Government and Beijing International Studies University by signing an educational cooperation agreement.

At present, the Chengdu Affiliated Middle School Education Group includes kindergartens, primary schools, middle schools, and high schools. In the middle and high school stages, there are a total of 74 administrative classes, 3543 students, and 303 teachers.

Beijing International Studies University is a university specializing in foreign languages, which has already cultivated many diplomats in China. School relies on the expertise of it, with the characteristic of students mastering English, and developing a "second foreign language", aiming to cultivate students with language proficiency and strong comprehensive qualities. The characteristics of school:

(1) English Specialization: English is taught in small, tiered classes and only 25 students in one class. More than 50% of the English teachers have teaching

experience not only for SHEE and CEE(Senior High School Entrance Examination and College Entrance Examination), but also for IELTS. Besides, the IELTS courses are offered regularly. Efforts will be made

to cultivate international talents with Chinese sentiments, global perspectives, and cross-cultural communication skills.

(2) Minority Language Specialization: Eight minority language courses are

offered to all students, including German, Russian, French, Japanese, Spanish, Arabic, Hebrew and Thai. Students who choose the outstanding minority language course have five to twelve

classes a week now and more than 1,500 students are taking the kind of course.

(3) Math Specialization: Most of the math teachers act as the class adviser, and

one math teacher teaches only one class. Meanwhile, five discipline competition courses also are offered under the guidance of Sichuan University.

School hopes that more children from ordinary families can master more than one foreign languages while having excellent knowledge of mathematics, physics and other subjects. Enable them to have good communication skills with the world.
